## JOEY ZELINKA

Full Stack Web Engineer

### PROFILE

Atlanta, GA  
678-365-5785  
cheflife365@gmail.com  
linkedin.com/in/joey-zelinka-9a40642a/  
github.com/JoeyZelinka

### PROFESSIONAL SUMMARY

Hardworking web developer who can think quick on his feet and works well under pressure. A former fine dining chef of 20 years (4 of which in the United States Coast Guard) responsible for leading large teams in high pressure environments and millions of dollars in sales.

### EDUCATION

**DIGITALCRAFTS • CERTIFICATE IN SOFTWARE ENGINEERING • JUNE 2021 – SEPTEMBER 2021**

### PROJECTS

**Magic: the Gathering Deckbuilder** – September 2021

A solo project done with React and Redux. I own an online shop named World of Realms that specializes in table top gaming and producing related content. I created this to be used on our site which is launching shortly. It allows you to search for the card by name or card specifics. It returns every printing of the card from an API and let's you add it to a deck for later use.

**PANTRY RAIDER • AUGUST 2021 • URL**

A recipe and dish suggester based on what ingredients the user had in their pantry. The dish suggestions came from our own PostgreSQL database and an recipe API. Login authentication and profile databases as well.

Utilized PostgreSQL, Javascript, Bootstrap, CSS, HTML to complete the project

**MUSICLINK • JULY 2021 • URL**

A group of 4 30+ year olds fed up with the fact that Mtv no longer plays music decided to take one back for the elder Millenials. MusicLink allows you to search for a music artist and retrieve their YouTube videos and Wikipedia artist information using their respective APIs.

Utilized Bootstrap, Express.js, Javascript, HTML, CSS
